

## ARMADILLO LIZARD

**Behavior:** This is a popular lizard that originates from Africa; they don't get very big and are very docile. Their natural habitat is shrubs and rocky areas, they are also diurnal which means they are most active during the day.

**Experience Level:** Beginner.

**Adult Size:** 10 inches

**Life Expectancy:** up to 20 years.

**Ambient Temperature:** 75F.

**Basking Temperature:** 90-100F.

**Light:** Repti-Glo 10.0 plus and heat lamp and undertank heater if necessary.

**Humidity:** 45%

**Food:** Crickets & wax/meal worms.

**Minimum Cage Size:** 30 gallon.

**Habitat:** Provide a basking rock or log under a basking lamp and UV source, they will absorb heat from their back and belly. Also provide a hide to cool down in or retreat if they feel threatened.

**Substrate:** repti-sand, bark, mulch.

**Maintenance:** Change water daily and remove any feces. Wipe down the entire enclosure once a week. Misting should be done every second week but do not over mist, the tank should never be damp.

**Basic Requirements:** Enclosure with a secure lid, heat lamp, undertank heater, basking rock, water bowl, thermometer, hygrometer, spray bottle, UV light, substrate, ornament/vegetation/hides, vitamin/mineral supplements.
