

VEILED CHAMELEON

Behavior: Veiled chameleons have eyes that are able to look in different directions at the same time giving them a 360 view without having to move. They have the ability to change colors depending on the temperature and their mood. They do not like being handled and are not for beginners.

Experience Level: Advanced.

Adult Size: 6-12 inches.

Life Expectancy: 5 years.

Ambient Temperature: 70F.

Basking Temperature: 100F.

Light: Repti-Glo 5.0 plus a heat lamp.

Humidity: 40-60%

Food: Crickets, worms, greens (collard greens, kale).

Minimum Cage Size: 2 feet wide x 2 feet deep x 4 feet tall.

Habitat: Lots of climbing branches and vegetation, they are arboreal and very rarely go down on the ground.

Substrate: Bark, mulch, repti-carpet.

Maintenance: Mist their habitat frequently. They will not drink from stagnant water so a fountain or bubbler is a must. Clean any feces daily and do a complete cage cleaning monthly.

Basic Requirements: Enclosure with a secure lid, heat lamp, undertank heater, basking rock, large water bowl, thermometer, hygrometer, spray bottle, UV light, substrate, ornament/vegetation/hides, vitamin/mineral supplements.
